

Bullying Hurts

By

Sam Stauffer

Grade 5

I know many people who are afraid of being bullied. I understand why people would be afraid of being bullied because it can really hurt you. Whether it is physical or verbal bullying it still hurts.

We need to stop bullying as a school so BRMS can be a safer and happier place. We can do this by standing up for people that are being bullied and stopping people who are bullying others. When you see someone who is being a bully get an adult to help.

There are bullies in every school, but we can help stop bullying and make our school better. We need to be Bully Busters and help our school.
